

LAND FOR SETTLERS

WASHINGTON, Sept. 11.—Withdrawal of about 140,544 acres of land from the Monterey national forest, California, to be opened for settlement, was announced today by the Interior department. The lands are San Benito, Monterey and Fresno mountains, and are said to be valuable chiefly for grazing, though scattered fields have some agricultural value. They will be open for settlement under the homestead laws only from November 7 to December 4, 1916.

STEAMER SOLD
SAN FRANCISCO, Sept. 11.—The col steamer General Hulburt was sold here today for \$495,000 to Norwegian interests. The vessel was built in 1910 at a cost of \$225,000. The General Hulburt has been engaged in the lumber trade on the Pacific Coast.

Billings entered the courtroom, accompanied by Thomas J. Rooney, his father, Rena Mooney, Samuel Weinberg and Edward Nolan, all of whom are charged with conspiracy in connection with the bomb explosion. Billings, just before the trial began, expressed confidence that they would be acquitted.

After making the opening statement for the prosecution, read by the victim, the bomb explosion was the victim's evidence. He said that he was the only one who saw the explosion. "It will be the climax of the prosecution," said the victim.

At Warren K. Billings is guilty of murder in the first degree and we all expect him to be convicted."

POSTPONE SCHOOL OPENING
TOLEDO, Ohio, Sept. 11.—Further postponement of school opening here on account of infantile paralysis was decided upon by the board of education today. The date was continued to September 25. Eleven fresh cases and three deaths were reported today.

the pumped water from Daly City, a distance of about two miles. In addition to the Colima hotel a garage, a state residence and a shark were destroyed. Damage was estimated at \$600,000.

an inquest this afternoon.

The collapse of the initial span of the bridge, August 28, 1907, was one of the great disasters in engineering history. Then sixty engineers and workmen perished. The loss to the government in subsidizing and guaranteed bonds was about \$5,000,000.

Today's accident happened when the engineers attempted to place the new central span in position to be hoisted to its position as the connecting link in the steel structure.

The connecting span was not used and it is probable that still another attempt will be made to complete the

KINGS RIVER BRIDGE
TO BE RE-CONSTRUCTED

County Will Furnish the
Materials and Labor
Needed

The work of reconstructing the bridge over the Kings river at Turner is to be commenced in the immediate future. The board of supervisors yesterday appointed Jap E. Mitchell as supervisor of construction.

All materials, labor, engines, and jacks are to be supplied by the county. Mitchell has agreed to furnish all the small tools necessary. For his part in the rebuilding of the bridge, Mitchell is to receive a sum equal to 15 per cent of the total cost of materials and labor. It is estimated that the expense to be entailed in making the new bridge will be about \$6,000.

The supervisors deemed the bridge to be an emergency necessity and instructed that the work be started as soon as possible. The old bridge was washed away.

BORN

COSICK—Near Fresno, September 11, 1916, to the wife of Thomas P. Cosick, a son.

BAXTER—On Blackstone avenue, September 10, 1916, to the wife of C. S. Baxter, a son.

MARRIAGE LICENSES

RUCI-KORSTADT—Claude Rouch, 25, Kingsburg, and Edith M. Korstadt, 30, Fresno.

KNIDSTON-ROBERT—Arthur Knidston, 24, Fresno, and Luella Rogers, 11, Selma.

DEATHS

POLITIO—In this city, at a local sanitarium, September 10, 1916, V. Politio, native of Austria, aged 55 years.

HUSBAND CHOKED HER
WHEN ILL, WIFE SAYS

Mrs. Nellie E. Jones Is
Given Interlocutory
Divorce Decree

Mrs. Nellie E. Jones of Fresno was awarded an interlocutory decree of divorce yesterday by Judge H. Z. Austin from Richard S. Jones on the grounds of desertion and cruelty. Mrs. Jones said that her husband beat her and choked her on several occasions. That one time he choked her while she was sick in the Clara Barton Hospital, Los Angeles, that he called her vile names, and that on two occasions when she went out to the store to purchase food with which to prepare breakfast, she found another woman with her husband in the house.

Mrs. Jones said her husband left her July 23, 1913, and that she does not know where he is now. The couple married in Los Angeles, April 5, 1910.

WIFE ASKS FOR
ALIMONY ORDER

Mrs. Esther E. Johnson, who is suing her husband for divorce, and who is also suing Miss Minnie McIntosh for \$10,000 damages, charging that the latter alienated the affections of her husband, yesterday applied to the Superior Court for an order to show cause, directed against her husband, Theodore Johnson, in which she seeks \$100 a month temporary alimony pending hearing of the divorce case. Mrs. Johnson says that she and her husband own 160 acres of land just outside of Fresno, that it is well stocked, and that forty acres are planted to peaches, from which alone a return this season is expected of more than \$3,000.

MYSTERIOUS WIDOW IN MORRISON CASE

Judge Urges Search for Woman Said to Be in Los Angeles

CHICAGO, Sept. 11.—The entrance of a mysterious widow into the case of Edward W. Morrison, eccentric reclusive millionaire, caused Federal Judge Landis today to urge a search for the widow, said to be a "Mrs. Teckla Gephart" of Los Angeles, Cal.

Morrison, it is charged, was fleeced of several hundred thousand dollars. James H. Ward, Morrison's deposed lawyer and present holder of about \$1,500,000 of the aged millionaire's estate, testified that \$18,000 of Morrison's money went to Mrs. Gephart in part payment of a note.

Ward was vague regarding Mrs. Gephart's present whereabouts; but he thought she was in Los Angeles, he said. Judge Landis said he would ask the Los Angeles police to locate her.

GREEN PREMIER RESIGNED.

LONDON, Sept. 12, 1916.—A Reuters report that Premier Asquith has tendered his resignation is officially confirmed and that every effort is being made to persuade him to withdraw it.

BYRAN TO OPEN STATE FAIR.

HELENA, Mont., Sept. 11.—William J. Bryan will speak at the opening of the Montana State Fair Monday, September 25, according to announcement made here tonight. Mr. Bryan it was announced, will deliver campaign speeches in Montana from September 25 to 28.

BEGIN WORK ON FAIR.

GULFPORT, Miss., Sept. 11.—Actual work on the site of the Mississippi centennial exposition, which will open here October 18, 1917, and close May 1, 1918, began today. The exposition will be erected within a hundred acre tract with its frontage along the shore of the Gulf of Mexico.

SNOW IN COLORADO.

DENVER, Colo., Sept. 11.—Colorado's first snow of the season is falling at Leadville today, according to reports to the local weather bureau. The precipitation began last night and amounts to nearly one inch.

FORMER P. M. GENERAL DIES.

NEW YORK, Sept. 11.—General Thomas L. James, postmaster general under President Garfield, died here today in his eighty-sixth year.

CAN REGISTRATION BE REFUSED INDIANS?

SAN FRANCISCO, Sept. 11.—Shafter Matthews, county clerk of Lake county, was ordered by the Supreme court here today in a writ of mandamus, to register Indian voters or show cause why he should not. The writ was requested Friday by the Indian Board of Co-operation which claims there are several thousand Indians in Lake county barred from voting. The Rev. Frederick G. Collett, field secretary of the board, said tonight he expected Matthews to come to court Oct. 6, when the writ is returnable and fight for his right to refuse the ballot to Indians.

FIRE DESTROYS PIER.

NEW YORK, Sept. 11.—A new pier of the Long Island railroad, at its terminal at Perth Amboy, N. J., was destroyed by fire of unknown origin late today together with twenty loaded cars and two schooners. The loss is estimated at more than \$200,000.

CUT OUT 5-CENT LOAF.

BIRMINGHAM, Ala., Sept. 11.—Birmingham bakers have discontinued the five-cent fourteen-ounce loaf of bread formerly sold here and began selling today a ten-cent twenty-ounce loaf. The change was put into effect after a conference of bakery interests.

HOOD HOOS SELECT NEW YORK.

MIDWINTER, Tenn., Sept. 11.—New York City was selected today as the next meeting place of the Concentrated Order of Hood Hoos, a jumblerman's fraternity.

TO SHARE BIG ESTATE.

ST. PAUL, Minn., Sept. 11.—Mrs. Ruth Hodge of Redlands, Cal., is one of the three children who will share in the \$430,000 estate of her father, the late A. G. Stockney, founder, and for years president, of the Chicago Great Western. His will was probated here today.

GENERAL IS RETIRED.

WASHINGTON, Sept. 11.—Major General James B. Aleshire, quartermaster general of the army since July, 1907, was placed on the retired list today on account of physical disability.

AUSTRIA TO USE IRON COINS.

A new regulation, issued by the Austrian ministry of finance, orders the withdrawal of all nickel coins. From the London Times.

IT WAS A LONG WAY.

Teacher: Tommy, can you spell "far"? Thomas: Yes, sir, Far. Teacher: That's right. Now can you tell me what far is. Thomas: Yes, sir. Far is an awful long way.—Cornell Widow.

REPORT YAQUI BAND CLOSE TO NOGALES

Americans Ordered Across Border; Mexican Authorities Deny

NOGALES, Ariz., Sept. 11.—Yaqui Indians were seen today on the hills overlooking Nogales, according to reports tonight. Single calls were heard in the Mexican town and Americans were ordered to cross the frontier to the Arizona side. Rumor had it that the Yaqui band had been driven by the Indians into the town, wounding one Mexican. The Mexican consular authorities denied that Yaquis had been discovered in this region but they did not explain the reason for sending Americans out of the town.

Urge Law Reforms

Keener competition in all economic activities is sure to be one of the results of the European war, and lawyers, as well as other classes of citizens, must prepare themselves to meet it. The Illinois Root of the American Bar Association said recently in addressing the annual meeting of the Association, Chicago, in the administration of justice, a lessening of the overhead cost of running legal machinery, and more stringent enforcement of the admission to the bar were some of his preparatory suggestions.

"When the war is over we shall find ourselves in a very different world from that which witnessed the Austrian ultimatum to Serbia," Mr. Root declared. "It will be a world in which the greater part of the nations return to the peaceful competition of production and commerce with a vast increase of power to compete caused by the training of hardship and sacrifice. Plainly, the neutral nations who have neither endured the hardships of war nor achieved the rewards of this hard experience upon these events. Whether We Wish or Not.

"In the amazing developments of these years there are lessons for us to learn which we must not ignore. There are lessons not merely as to submarines and aeroplanes and high explosives, but as to the whole effective capacity of the nation by which it maintains its place and progress in the world in peace as in war. No human power can withhold the people of the United States from the part which international competition which will follow the return of peace. It is not a matter of volition. It cannot be controlled by legislation or by change of parties or by voting. The United States must therefore be prepared to meet competition carried on more effectively than ever before.

"It is plainly the duty of all Americans, whatever their calling, to consider by what means they can contribute through either the increase or the conservation of power in their own fields of action, towards the permanent higher capacity of the people of the United States.

"There is no body of citizens to whom this duty should appeal more strongly than to the lawyers, because the subject vitally affects the relations between the individual and the state regulated by law and the fundamental conceptions upon which our system of government is based.

"The underlying cause of the defective administration of the law, Root said, was that the bar and the people of the country generally possess up to a false assumption as to their relation to judicial proceedings.

"Consequently," he continued, "we all treat the business of administering justice as something to be done for private benefit instead of treating it primarily as something to be done for the public service. The administration of law is affected by the general attitude in which citizens think about what they are going to get out of their country instead of thinking of what they can contribute to their country.

"Our political system makes such an attitude on the part of the bar very natural and easy. With our highly developed individualism, our respect for the sanctity of individual rights, and conception of government as designed to secure those rights, it is quite natural that lawyers employed to assert the rights of individuals and loyally devoted to their clients' interest should acquire a habit of mind in which they think chiefly of the individual view of judicial procedure, and seldom of the public view of the same procedure. It is natural that the same habit of thought should be carried into our legislatures by the lawyers who make up the greater part of those bodies; and with our governments of narrow and strictly limited powers it is natural that there should be a continual pressure in the direction of promoting individual rights and privileges and opportunities and very little pressure to maintain the community's rights against the individual and to insist upon the individual's duties to the community.

Need Better Training.

TO BRING TEST SUIT ON EIGHT HOUR LAW

NEW YORK, Sept. 11.—E. P. Ripley, president of the Atchafalaya, Topoka and Santa Fe Railroad, announced here tonight that he would bring suit to test the constitutionality of the recently enacted eight hour law. He was of the opinion that other western railroads would do likewise. He termed the law confiscatory, called it class legislation and said it was in violation of freedom of contract.

THE SPELL OF THE DESERT.

What is the spell of the desert?—how can a fellow say? Is it the sun on the drifting sands of a blinding, burning day? Perhaps the hiss of a rattler coiled in a clump of mesquite? Or maybe the little dust-devils running on twisted feet?

You say it's the blues of colors that come when daylight goes. Colors that never had a name and only the desert knows; And then the sudden drop of night, so still you can hear the tread. Of a coyote nosing the water-hole, or the turn of your broncho's head.

I tell you the spell is none of these; it's something a man can't see. But what it is that haunts the place you will never learn from me. I only know it's branded me—this much I can understand. And I must leave the easy trail to wander that burning land.

DANCES HIMSELF TO HEALTH.

Dr. J. Hearty Crozier, who is 67 years old, says he keeps himself in health partly by step dancing every night before he goes to bed. On with the dance; let joy be unconfined! And do some good to shoemaker and his heir.

A milder body and a saner mind (According to good Dr. Hearty Crozier) Will be the portion of us older chaps. Whether we're clad in broadcloth or in duffie. If we by day go in for "cellar-raps," And every night perform a couple shuffle.

Let moralists denounce those "trotts" and "glides," With some time back our youth were fond of tripping— Those bunny hugs, and who knows what besides; The step-dance cure is absolutely ripping. And Dr. Crozier, of the bulldog breed, Is what the costermonger calls a "take-down."

For dancing for your health will never fail. Although you might not think it, to a breakdown.

—From the London Globe.

The Marquis of Landsdowne, himself an Irishman and whose 115,000 acres in Ireland properly in seven Irish counties, is held responsible for the delay in the passage of the Irish Home Rule bill by the British Parliament. The Marquis, who has fought home rule for twenty-five years, is the leader of the Conservatives in the House of Lords.

A Bargain Hunter.

"Dubwatto has a handsome tiger skin." "Yes. He bagged it himself." "Surely not in the jungle?" "Well, at an auction sale."—From the Birmingham Age-Herald.

BEATING THE INCOME TAX.

A school superintendent in Illinois is said to have had his salary reduced from \$4,000 a year to \$3,999.95 in order that he would not be obliged to pay income tax. A genius of this quality needs a wider field for his patriotic activities than is afforded by the office of a school superintendent.—Philadelphia Press.

CANNOT FORGET THEM.

"It's usually a mistake for a man to talk about his troubles." "Yes," replied Senator Borah; "but I've got to. I'm slated for a series of campaign speeches."—Washington Star.

THE TORPEDO'S SPEED.

A whitehead torpedo runs 600 yards, traveling part of the distance at the rate of fifty miles an hour.

WASTE OF MONEY.

"Women have queer ways." "How now?" "The styles call for mannish hats. So my wife bought a mannish hat for \$18." "Well?" "She could have bought a man's hat for \$4."—From the Pittsburgh Chronicle Telegraph.

FAIRBANKS STARTS MISSOURI CAMPAIGN

Declares Republican, Not "War Made," Prosperity Country's Need

SPRINGFIELD, Mo., Sept. 11.—Charles W. Fairbanks, Republican candidate for vice president, tonight in an address here appealed for the Republican party to be returned to power "because the country would need its policy when peace comes in Europe."

IN A DIVING SUBMARINE.

The submarine had now to prove her diving qualities. So things were blown out and up she went to the surface again; and there, while she was resting like a bird on the water, ballast tanks were suddenly filled and down she went. Down, down, down she went—the long green finger on the broad-based gauge walking around at a fine clip.

Dropping so on an even keel, by the way—she gave out no sense of action such as a man feels on an aeroplane. Flying around in the air, you see what's doing every second. If anything happens, you know you will see it coming, and, perhaps, guess your eyes, ears, brain and nerves prove things to you. But action in a submarine lies largely in a man's imagination, unless he be the periscope man, and even there, when she is completely submerged, he sees no more than the others.

However, a man did not need to have too much imagination to think of a few things as he looked at the long green finger walking around: Thirty feet, 40 feet, 50 feet! This particular observer had no idea she dropped so fast, and as she dropped he could not help wondering how deep the ocean was around there—this in case anything happened. Sixty feet, 70 feet—she was gathering great speed by then, but at 82 feet she stopped; a pleasant thing to see. And then, maybe to show it was no accident, she did it all over again.

We did not feel any difficulty in breathing during all this. We did not, not during the three or four hours we were under that morning. And let a man listen to these submarine enthusiasts telling how they can live three or four hours in, without coming to the surface!—James B. Conolly, in *Illustrated Weekly*.

A SOCIAL INTRUDER.

"Look at 'em!" exclaimed the burglar. "Look at what?" asked the pocket-book snatcher. "Them black an' white stripes that's all the style I kin remember when they put 'em on us. I thought we was disgraced."—Washington Star.

ONE OF THE SIGNS.

"Are you sure this is a fashionable resort?" "It must be. Nearly everybody you meet laments because the war makes a trip abroad quite out of the question."—From the Birmingham Age-Herald.

LIKELY.

King Solomon, who never blundered, Had wits that numbered seven hundred. And yet when all is said and done, How many have been a fool—with one. —From Life.

IMPORT TAX PROTECTS LABOR.

Switzerland has taken the lead in a taxation to balance the almost universal import tax on labor products, according to a report from the American labor union. Goods from abroad are subjected to a tax according to the wages they receive. This is the first import tax that protects labor.—From the Toronto Globe.

OBSTACLE RACE.

"Have you a man's wing to your summer hotel?" "Never heard of such a custom. Why should we?" "It would be popular. I don't like to hurdle a line of trunks as I pass through the hall."—Louisville Courier-Journal.

Summer Weariness.

And Phosphate quickly relieves hot weather languor, exhaustion, and nervousness.—Buy a bottle and try it. —Advertisement.

DARING BIRD MAN MAY COME TO FRESNO FAIR

Joe Boquel, State Fair
Fame, May Be Seen
in This City

Circus Aviator Makes Illuminated Flights During Night

Joe Boquel, the aviator who held thousands of spectators at the California State Fair last week while he performed difficult feats in the air, may be one of the new attractions this year at the Fresno District Fair, from September 27 to 30. Negotiations are now under way to bring Boquel to Fresno for four weeks, and the only thing that stands in the way is Boquel's contract to fly on the same dates at Seal Beach. An attempt is being made to have the dates changed or canceled so that Boquel can come here and fly at the fair which ranks second to the California State Fair.

It was the general opinion of the fair management this year that they would not be any attempt to bring an aviator here, as it was presumed that Fresno and visitors from the surrounding cities were tired of him. But when J. E. Dickinson, president, and C. G. Eberhart, secretary, saw Boquel at the State Fair last Friday-Saturday Valley Fair—they were so favorably impressed that they immediately called upon him and offered to bring him to Fresno. Boquel's manager made a special trip from San Francisco and conferred with the fair officials Friday night and Saturday morning. Satisfactory arrangements were made in regard to finances, but Boquel is tied up with a contract at Seal Beach.

Boquel is a circus aviator. He flies upside down, sideways, dips, spins, makes cork screws and does feats in the air that cannot be conceived unless you actually see the aviator. He flies directly in front of the grand stand and at a low altitude so that spectators can follow every move. These stunts are only he seen from the fair grounds. Boquel's night flights are something marvelous. He leaves a stream of colored lights in his path and the different lights are a signal to the spectators as to what feat he will perform next. The night flights are beautiful and should without a doubt be the most daring and skillful aviator that has ever exhibited at the state fair. He is a pupil of Bud Mars.

SEND MEN TO WORK AROUND BIG CREEK

Crew Prepares for Pro-
jected Raising of Dams;
Lodge Closes

As many men as can be obtained are being sent from Fresno to the Big Creek region, according to word from the offices of the San Joaquin and Eastern Railroad. A crew of nearly 200 men is at work at present clearing the ground for extensive construction work on the three dams at Huntington Lake that have been planned by engineers of the Pacific Light and Power Company. The original plan of the Big Creek project call for dams 50 feet higher than the present ones, which would add to the capacity of the lake by many acre feet.

It is not known just when the actual construction work will begin. It is believed that some work will be attempted this fall, but that the main construction activities will not be running full blast until next spring. Hydraulic Engineer J. C. Starr is directing the men who are now engaged in overhauling the equipment and construction camps that were abandoned when the present dams, power plants and tunnels were completed over two years ago. E. J. Starkey, special agent of the Pacific Light and Power Company, was in Fresno yesterday on business connected with the development work.

Huntington Lodge Closed
Huntington Lodge was closed yesterday after its second successful evening. C. D. Staud, auditor for the power company and formerly auditor for the San Joaquin Light and Power Company in this city, will be a Huntington Lake shortly to audit the accounts of the lodge. It is possible that the lodge may be opened for a short midwinter season, but definite plans have not as yet been completed.

AUBERY ARRESTS THREE SPEEDERS

Fresno County Traffic Officer W. L. Aubery last night arrested four state motor act law-breakers. T. B. Goodwin, San Francisco, Peter Madsen, Del Rio and E. R. Hight of Fresno were cited to appear before Judge Graham for speeding.

who flew before thousands at the exposition in San Francisco last year. The fair management is anxiously awaiting word from Boquel, as to whether he will be able to accept the contract and come to this city.

SAYS JAPAN'S AIM IS DOMINATION OF CHINA

Frederick McCormick, on
Brief Visit, Explains
Tangled Situation

"World War Is Japan's Long Looked for Opportunity

Frederick McCormick, author, world traveler and recognized authority on all China-Japan questions, passed through Fresno yesterday en route to his home in Los Angeles. During a brief stop here, McCormick visited several old friends, toured the city and devoted a few moments of his time to a system of China's history from the time of the Russo-Japanese war to the present day scheme of the Japanese government to annex all of East Asia and to force the hundreds of millions of inhabitants there to submit to the rule of the Mikado.

Sixteen years of his life spent in the study of the history and development of the Chinese people, and the study of their mode of life, their politics, their aims and ambitions, has made of McCormick probably the foremost student of all things Chinese and has given him an intimate knowledge of the present difficulties between the infant republic and the polytheistic of the Plovery Kingdom.

Probably the most remarkable situation in China today and one that may eventually defeat the scheme of the Japanese statesmen is the strong faith that the old generation of Chinese is placing in the young men of their country. McCormick pointed out, through all the old established rules of the Manchurian Dynasty are being shattered by the younger generation, even to the overthrow of a throne that has stood for hundreds of years before their time, the one time rulers of the republic are now standing quietly by, content to allow the reins of the government to be handled by their sons. And this fact, more than anything else, is tending to delay temporarily, if not to defeat, eventually, the efforts of the Japanese toward the domination of their entire territory, according to McCormick.

Was Japan's Opportunity
The present world war is the opportunity that the Japanese government has been looking for," said McCormick. "They have been shrewd enough to effect an alliance with the Allies, which allows them to proceed unhindered in their plans to bring the integrity of China under direct Japanese control of a soundly portion of the Chinese Republic and it is only a matter of time before they will dominate more of the one-time Manchurian empire."

"In China this condition is being realized. The younger generation are becoming enlightened. Thousands of Christian missions established over the various provinces have done a wonderful work and to them is due the credit for having lifted China from the depths."

"It was these Chinese who were the strength of the recent uprising against the rule of the empire by Yuan Shi Kai. They realized that it would happen the day when Japan would step in and assume control."

"That day is drawing nearer, slowly but surely, and the best evidence that she is making progress lies in the fact that she has the entire field to herself now, and will have it during the entire period of the world war. Even at the end of the great conflict Japan will be without hindrance in her aim against the Chinese for the European powers will be without funds and Japan will be in a position, practically, to dictate to them."

To the Pacific domination of China by the Japs, presents a very grave question. It will be the lever by which the Japanese government will seek to force the abridgment of the immigration laws affecting their people. This is realized here by financial aid to China is being withheld by American capitalists because our government is withholding its protection.

China is a wonderful country, with wonderful resources, but she is yet a long way from being thoroughly awakened, and Japan, progressive and wide awake, is making the utmost of every opportunity to secure the upper hand in East Asia, to place beneath its heel every one of the many million Chinese."

McCormick, as correspondent for Harper's Weekly and the London Graphic, during the Boxer outbreak in China, met with dozens of thrilling experiences. Later he served as war correspondent for Reuters' news agency.

LOVE OF TRUTH IS TRUE RELIGION

Day of Religious Demo-
cracy Says Rev.
Sullivan

"This lifts the roof off our souls," said Rev. William Sullivan of All Souls church, New York City, last night, in identifying the religion of modern men with the spirit of Jesus.

"The world of religion is composed of a great classification with itself today, and of a great future not yet achieved, because we have not yet a religious and spiritual conception of life that is compatible with democracy. Does it mean a complete flatness of spirit, a Godless age? No! Rather, it means a new religious life that has yet to be achieved. In the past, dread of and suppression of personality has been the keynote of religion. The Hebrew religion supposed a favored race and implied a limitation of God so far as other races were concerned. The Mohammedan religion of the Roman Empire and in the Christian churches since there has been the same thing in so-called secret societies of the saved, whose members were or are saved, not because of being better men, but because of belonging to a chosen club of the elect."

"Not only so but the great God has been limited and the human spirit as well, but in all its search after both truth and right, the great ecclesiastical institutions above all others have stood, and said, seek truth and right thou shalt find it. But the human spirit may seem to criticize the Sacred Book or the Sacred Church. For instance, a scholar who reverences truth and right reads in the Old Testament, 'Thou shalt not suffer a witch to live.' He reads human history and finds that in every land, every age, there have been innumerable murders. But the church forbids him to say that this is an immoral teaching and text, though in the Bible."

"But now we come to a different time. It is the day of democracy. To a religion means the search for truth, which is the only way to reach for right whatever holy thing it may make unholy, and above all it means the infinite and eternal worth of every human soul, and that every soul must grow and grow forever, and that its only boundary is not any book, or church, or creed, but the infinite and solely the infinite truth and life of the Eternal God Himself."

"To worship modernity is as much a superstition as to worship antiquity. These ideas are modern, but they are more than that; they are indeed eternal. We have to love, to love right, to love right, and to love and reverence the human soul that expresses Him."

and the Associated Press, with the Russian army in Manchuria. For 23 months he was the sole foreign correspondent reporting the Russian-Japanese war from the Russian side. One of the most important missions fulfilled by him during this period was when he acted as interpreter of General Daniloff on the latter's trip to evacuate Russian prisoners. This was the first Russian official trip to Japan following the declaration of peace. In 1906, McCormick was the special correspondent in Korea at the time of the Japanese assumption of Korean government control. Two years later he reported on the Russian-Japanese war from the Russian side. McCormick, who has extensive stock holdings in the southern part of the state, has been exhibiting a string of prize winning horses at the State fair in Sacramento, and it was while returning to his home with his wife from Sacramento, that he stopped off in Fresno.

Recently he completed a thorough tour of Mexico, traveling from border to border and familiarizing himself with the conditions in that war-torn republic. The point in civilization attacked by the Mexicans was, but little advanced over the Chinese, he pointed out, and similar conditions could be found in both countries.

Wrote Many Books
Among the number of books written by McCormick are "The Tragedy of Russia in Pacific Asia," "China's Monuments," and "The Power Republic." An article entitled "Why China War Loan Failed" will appear in the October number of "The Forum."

State Fair Boosters Were Appreciative of Visit From Valley

The last of the Fresnoans, who went to the state fair in the automobile caravan, returned to Fresno yesterday from Sacramento and all expressed their pleasure at the reception they were accorded by the Sacramento business men and the state fair officials. Governor Johnson and a committee of Sacramento people met the San Joaquin Valley delegation on the state highway near the city and escorted the automobile caravan into Sacramento. The visitors during their stay in Sacramento were shown every courtesy and a feeling of friendly cooperation was manifested by the representatives from the Sacramento and the San Joaquin Valleys.

Mayor Snow, who headed the caravan trip, yesterday sent a letter to the Sacramento delegation in which he expressed his pleasure at the reception given by the Sacramento people, Mayor Snow's letter follows:

Mr. J. Earl Langdon,
Managing Editor, Sacramento
Dee,

Sacramento, Calif.
My Dear Mr. Langdon:
Just before leaving Sacramento, at the conclusion of Fresno's visit to your city, I had handed me, with your compliments, the original of Buel's cartoon of some members of our party, for which please accept my thanks. Buel is an artist.

I desire to say that the large delegation from Fresno, which left here on the morning of the 7th inst., to attend the State Fair, was delighted with the reception tendered it, not only by the Governor, City Officials and Sacramento people, but by the citizens of Sacramento generally. We hope that we may have an opportunity to show our appreciation in the near future.

We have voted that Sacramento is all right, not a dissenting vote. Sincerely yours,
ALVA E. SNOW.

"Fresnans should make more of these trips," said Mayor Snow, "and I for one think that we should visit our neighboring cities more often. Not when we want something but just to promote the spirit of unity."

"We made an exceptionally fine showing in Sacramento," said John A. Neen, president of the Fresno County Chamber of Commerce, "and I wish to express my appreciation of the reception given us by the Sacramento delegation. From all sides I heard that we made the biggest showing of any visiting city at the state fair and that is quite a record when it is considered that we traveled nearly 175 miles and made a two day trip of it. I am proud of the showing made by Fresno and I heartily endorse the suggestion to make more visits to our neighbors."

"We did a lot of good boasting for our district fair," said J. E. Dickinson, president of the Fresno District Fair Association, "and we will not only get a number of exhibits but many people from the bay sections will come to Fresno."

H. E. Patterson, secretary of the Merchants Association and William Stranahan, president of the Commercial Club, expressed appreciation for the reception tendered by the Sacramento delegation. From all sides I heard that we made the biggest showing of any visiting city at the state fair and that is quite a record when it is considered that we traveled nearly 175 miles and made a two day trip of it. I am proud of the showing made by Fresno and I heartily endorse the suggestion to make more visits to our neighbors."

"California Associated Raisin Company is deserving of much praise for sending the Sun Mild band to Sacramento," said Stranahan. "The band was one half of our excursion and made a big hit at the state fair."

"The automobile caravan has done more to strengthen the relationship between the two great valleys of California than any previous effort that I can recall," said H. Wingate Lake, president of the Fresno County Raisin Day Festival Association. "Knowing so many people in Sacramento I naturally heard much comment," continued Lake, "and the residents of that city were appreciative of our visit and especially because of the large delegation that we sent after the state fair had been partially destroyed by fire. The visit of our city to another promotes a feeling of good fellowship and I am in favor of Fresno some time in the near future sending delegations to San Francisco and Los Angeles. We can do our city and valley much good in this manner."

KNIGHTS OF PYTHIAS ATTENTION
The funeral of our late brother W. Pettis will take place Tuesday afternoon at 2:30 from Hopkins & Son undertaking parlors. All Knights are requested to attend. At 10:00 a. m.

Leadership
Savage Tires, as did the old-time Chieftains, won their leadership through honest worth. Their success is due to the miles of service and to the satisfaction they give their users.

Demonstrate Savage Leadership—you'll do it if you try only a single tire. Make any test you like and you will prove that the "Savage" is far in the lead.

Savage Grafite Tires are leaders, too. Examine one and you will see why. Try one and be fully convinced.

Study What You Eat
In studying what you eat and what you feed your family, it is wise to include such a body builder and restorer as milk.

The body craves its nourishing qualities because it furnishes all the needed elements in a highly digestible form.

Don't Use Milk Unless It Is
Pasteurized and Clarified
Great care should be taken to secure milk that has been subjected to purifying processes.

We have always taken the utmost precautions and you can rest assured that the milk we deliver to you is PURE and SAFE. We safeguard the health of our customers.

FRESNO Bohemian TYPE EXPORT BEER

WHEN considering beer do not fail to bear in mind the splendid quality of FRESNO BOHEMIAN made in your home town so decidedly better than other beverages of this kind that there can be no comparison.

It is a beer that is constantly gaining in favor and is gradually taking the place of imported brews.

Why?—Because it is superior.

**THEATER OWNER
LOSES TO UNION**
K. S. Cashin, proprietor of a moving picture theater on I street, who sued the Moving Picture Local, No. 599, Fresno, for damages because of an alleged boycott placed on his show house some time ago, lost his suit in a decision handed down yesterday by Judge H. Z. Austin in the Superior Court. Cashin said that his business was damaged and interfered with by the union which caused pickets to parade up and down in front of his theater. Cashin is expected to appeal from the decision.
**MOTOR DRIVER
IS FINED \$25**
John Alfred, driver of a Sanger stage line motor, was fined \$25 yesterday for driving his machine while intoxicated. He pleaded guilty. Alfred was arrested Saturday night by Policeman Malloy.

Once A Customer, Always A Customer.

CLEO RIDGELEY FILM ACTRESS EATS REAL CRUDE OIL

Wallie Reid and Cleo Ridgeley in a story of the Coalinga Oil Fields—Kinema today

On a Fresno street an elegantly dressed lady would be highly increased if a drop of crude oil bespattered her gown, but here is Cleo Ridgeley reaching the zenith of her ambition—bringing in a real live gusher, covered with crude oil from head to foot.

Not for an instant did she falter even if her hair was blackened by the dirty stuff, and it is thus that Lucky works up to a tremendous climax in "The House with the Golden Windows," showing at the Kinema today. But not even then does Lucky stop, but keeps going on with climax after climax, until last night who saw it, wondered where the play was taking them and how the author would ever get out.

Simple—But Never Again.

It was simple of course and therefore the more convincing, especially when you thought them crazy, for fortunes are made and lost overnight in these oil fields, just as you and I might do. However, results have been accomplished and Cleo has been secured out of her selfish desire of wanting to show the big mansion on the hill from the wealthy oil dealer.

To say the least, it is a clear conception of thrills, heart interest and moralizing, and leaves us with a deep feeling of satisfaction, that maybe life is very much what you make it "right now under the present circumstances—leaving what may come to be enjoyed later."

That's the kind of play we all want. A play that entertains, with an interesting and unusual plot, and at the same time points out a way that will make us happier and get more out of the every day happenings of life, without moralizing; that's the kind of play we all want.

PRESS MEN HOLD ANNUAL ELECTION

The San Joaquin Valley Press association met in the Hughes hotel Saturday and elected the following officers for the ensuing year: J. R. Gould, Del Rey News, president; A. B. Shaw, Coalinga Oil Record, vice president; J. J. Vanderburg, Selma Irrigator, secretary-treasurer; R. J. Smith, Kernan News, and H. F. Simerly, Laton Argus, elected on executive committee.

There was a good attendance and matters of interest to the publishers were discussed.

SUMMER COLDS

Such a shape!

Know this square-end OWL. Then get this about cigar shapes!

An even-burning cigar, like this, gives you its best. Of all cigar shapes the square-end cigar is your surest even-burner. The Owl proves it.

A cigar which burns unevenly, like this, gives you its worst. The OWL practically never burns unevenly because it's hand-made in the square-end shape.

Shape alone will never make a cigar. But add to this square-end shape, 18 months of curing, long leaf filler, and hand workmanship—all features of the Million Dollar OWL, and you see why it is such a smooth-and-even-burning, satisfying smoke.

The Million Dollar Cigar

M. A. GUNST & CO. INCORPORATED

"MISSION PLAY", GREATEST PAGEANT DRAMA, TONIGHT.

Olivia Castillo, Spanish singing girl in "Mission Play"—White Theater

The greatest pageant drama that has ever been presented on the American stage, "The Mission Play" by John Steven McGroarty, is now playing at the White Theater and will be seen for the last time tonight \$15.

The Mission Play is to America what the Passion Play of Oberammergau is to the whole Christian world. It treats of the romantic period in California history, telling how the state was first reclaimed from barbarism by the labors of the Franciscan Fathers led by the great apostle, Fray Junipero Serra. But while the Mission Play treats of the labors of the Friars, it is not in any sense a sectarian production, nor has it a religious bias. The episodes are historic, and as told in the play are true to the actual happenings of history. Its value is a purely educational sense is remarkable. Every student of the history of California should see the Mission Play. It is necessary to a proper understanding of the history of the state.

The pictures it draws of life in California, true to the reality, are most attractive, a fact which makes the eastern tour of the play of the greatest possible advertising value to the whole state. This tour, as a matter of fact, will be the best advertising ever done for California in the east. Thousands of people who have never been to California, seeing the Mission Play, will be set to thinking and talking of California—and easterners who do that soon begin planning to come to California.

No Californian should miss seeing the Play, and wishing it success on its travels.

MAKES TOUR OF TUBERCULAR WARD

Miss Tait Has Praise for Work Being Done at County Hospital

Miss E. L. M. Tate, director of the Bureau of Tuberculosis, made an inspection of the tubercular ward at the County hospital yesterday. She expressed herself as much pleased with the work that is being done locally in the fight against tuberculosis.

Nearly every nationality is represented in the men's ward. Turks, Mexicans, Chinese and Italians are undergoing treatment along with many others. The tuberculosis treatment is under the direction of Dr. Georgia Thompson, who reports that the ward has been filled all summer. Miss Tate said she did not believe the people of Fresno realized that right at their door was a place where patients could be treated, without being sent away from home.

There are now five subsidized hospitals in the state. Shasta and Marin counties will soon open their new buildings.

A DAGGER IN THE BACK

That's the woman's dread when she gets up in the morning to start the day's work. "Oh! how my back aches." GOLD MEDAL Haarlum Oil Capsules taken today ease the backache of tomorrow—taken every day ends the backache for all time. Don't delay. What's the use of suffering? Begin taking GOLD MEDAL Haarlum Oil Capsules today and be relieved tomorrow. Take three or four every day and be permanently free from wrenching, distressing back pain. But be sure to get GOLD MEDAL. Since 1895 GOLD MEDAL Haarlum Oil has been the National Remedy of Holland, the Government of the Netherlands having granted a special charter authorizing its preparation and sale. The housewife of Holland would almost as soon be without bread as she would without her "Best Dutch Drops," as she quaintly calls GOLD MEDAL Haarlum Oil Capsules. This is the one reason why you will find the women and children of Holland so sturdy and robust.

GOLD MEDAL are the pure, original Haarlum Oil Capsules imported direct from the laboratories in Haarlum, Holland. But be sure to get GOLD MEDAL. Look for the name on every box. Sold by reliable druggists in sealed packages at 50c and \$1.00. Money refunded if they do not help you. Accept only the GOLD MEDAL. All others are imitations.

News From Central California

SCHOOLS OPEN WITH RECORD ENROLLMENT

Total of 2,430 Will Be Increased in Bakersfield; Other Schools Begin

BAKERSFIELD, Sept. 11.—The Bakersfield city schools opened this morning with the largest first day's attendance in their history. At the nine elementary schools 2,430 pupils were enrolled, which is more than 100 larger than the first day last year. The new McKinley school in the lower addition was opened for the first time with an enrollment of 161. There are eighty teachers and four supervising principals under Chief Superintendent D. W. Nelson, who began his eighteenth year as head of the school system. The following are the first day's enrollments: McKinley, 161; Emerson, 246; Bryant, 275; Franklin, 172; Hawthorne, 124; Lincoln, 223; Washington, 162; Williams, 299; total, 2,430. It is expected that this enrollment will be increased by several hundred by the first of October.

The kindergarten in the several schools enrolled 254 boys and girls. At Kern county union high school the first day's enrollment was well in excess of 500. High school opened today also at Wasco, Tehachapi, Taft and Delano.

The new Fremont school building for the grammar pupils of the Kern district in Bakersfield will be completed in about sixty days. The new Taft high school building will not be ready for occupancy for several months. The high school pupils numbering about 160, will have their classes in the Condey district buildings.

HANFORD SCHOOL SHOWS INCREASE

Total of 1,100 Last Year Will Be Exceeded by Registration This Year; Special Courses

HANFORD, Sept. 11.—Approximately 100 pupils have registered at the Hanford union high school and 700 at the grammar schools to the full term which began today. Both the high and grammar schools expect to exceed last year's registration figures, which 130 pupils studied at the high school and 700 at the grammar school. Special features at the high school this year will be a class in oral expression, which will be taken as a regular course, and the organization of an orchestra. A larger number of pupils than usual this year have asked to take general science and agricultural study. This is thought to be due to the new rules governing admission to the state normal schools.

BRIEF AUBERRY NEWS JOTTINGS

AUBERRY, Sept. 11.—Mrs. M. Richmond has returned from a business trip to Fresno. Mr. and Mrs. Richards gave an evening party to a few friends Thursday afternoon.

Quite a number of men pass through here daily bound for Big Creek, where considerable construction work is soon to commence.

Thos. Root, who left recently to visit where his business called him. Miss Fraser went to Academy for a visit with Ed. Swigart.

Miss Pearl Richmond, daughter of Mrs. M. Richmond, of Auberry, has gone to Fresno to attend business college.

William Horn and Geo. Silva came down from Hoffman Meadows, where they have been for the summer, looking after Thos. Root's cattle. After a short visit with friends here they journeyed on to Fresno.

Frank Alvino, accompanied by Mr. and Mrs. Alvino, of Fresno, were guests of Mrs. Emma Root on Thursday. After a short visit they will journey on to Big Creek, where they intend to remain some time.

The Darbenian Bros., who are in business in Fresno, have secured cottages in New Auberry and will bring their families up to reside here permanently.

Ranchers in this section are all busy overhauling their wagons and harnesses preparatory to the wood hauling season, which will soon commence.

Thimian Bratin has just received word from his father, who has been at the Blaney Hot Springs above Big Creek, for some time, that he is much improved in health and expects to return home in a few days.

Mrs. Thos. Carner and daughter, Helen, left Sunday for Fresno. They expect to remain as guests of her parents, Mr. and Mrs. Burleigh of West Port, for a week or more.

Mr. and Mrs. Dain of New Auberry left Sunday for a trip up the line as far as Stevenson Creek on a sight-seeing trip. Mr. Dain is a bookkeeper in the employ of the J. & E. B. Co., who with his wife are recent arrivals.

WASHBURN AVE.

WASHBURN AVENUE, Sept. 11.—W. D. Hart and little daughter of Fresno have been the guests of Mr. and Mrs. W. J. Christie.

Miss Christine Weaver has gone to Fresno for an extended visit with friends.

Miss Evelyn Wilson has gone to Fresno, where she entered high school today. She will make her home with Mr. and Mrs. Roy Payne.

Roy Scott and Miss Lucius Scott moved to Sacramento and spent the past week at the State Hotel.

Elizabeth Beaton has been seriously ill for ten days at the home of her daughter, Mrs. W. J. Christie.

Mr. and Mrs. Ira Laughlin entertained Mr. and Mrs. Geo. Laughlin and family several days. Later their guests motored to Sacramento to attend the fair before returning to their home in Waterford.

Mr. and Mrs. Sylvia Weisenheimer are enjoying over the arrival of a son born Wednesday.

NEW SCHOOL BUILDING IS NEARLY FINISHED

Maricopa's \$15,000 High School to Be Ready for Opening Monday

MARICOPA, Sept. 11.—Prospects are very favorable for the entire completion of the new \$15,000 high school building by September 18, the time set for the opening of the Maricopa schools. Contractor Gribble says the work is as well along that he has little doubt of his ability to complete it. Mr. Taylor, president of the school board, feels confident that all the furniture and supplies will be placed in ample time, as they were ordered early. One new high school teacher, one new grade teacher and one new kindergarten teacher have been added to the faculty, and the schools will be in better condition for good work than ever before. A big improvement is being made in sanitary conditions this year by the elimination of cesspools on the grounds and the connection of the school property with the city sewer. To do this he has been required to lay about 1,500 feet of sewer pipe, and workmen are at present engaged on this task, which is being rushed, that it may not cause any delay in the opening date.

TULARE GROWERS TO HOLD MASS MEETING

Weinstock, Giffen and Merrill to Speak at Gathering in Visalia

VISALIA, Sept. 11.—It is expected that a large attendance of growers of the county will be present at a meeting Wednesday evening in the new municipal auditorium in this city at which time Colonel Harris Weinstock, state market director; W. B. Giffen, president of the Associated Fruit Growers, and George E. Merrill, of the organization of prunes and apricot growers of the state.

Inasmuch as the prune growers of Tulare this year had a crop representing about 75 per cent of the entire state crop, the organization meeting is expected to attract a large number of growers. This is thought to be due to the new rules governing admission to the state normal schools.

HOLD SERVICES FOR YOUNG MAN

Harley Campbell, Who Was Killed in Dinuba Collision Is Buried at Menon; Dinuba Jottings

DINUBA, Sept. 11.—Funeral services for Harley Campbell, who died following a motorcycle accident here last Wednesday night, were held from the family home near Menon in the Smith Mountain cemetery.

Miss Ann Davis will leave for Fresno tomorrow. She has been at the McCormick home for the past two weeks.

J. A. Rhinns and family have returned from San Francisco. Mrs. Rhinns and children spent the summer in the East with friends and relatives and returned to San Francisco some weeks ago, where they were joined by Mr. Rhinns.

Local wineries are actively in the field buying wine grapes for the crushing season, which is now in progress. Prices range from \$12 to \$15 per ton.

W. R. Van Noy has returned from Bakersfield on a short business trip. Charles Carigan, principal of the Dinuba high school, is busy making registrations at his office in the school building this week. Freshmen have registered today, sophomores tomorrow, juniors on Wednesday and seniors Thursday.

Mrs. Susan A. George has been granted letters of administration in the estate of the late C. H. Antrim. The estate was valued at \$3,500.

Clarence Wilson, connected with a local bank here, has taken a position with the California Associated Raisin Company in Fresno.

Active construction work is progressing rapidly on the alterations and enlargement of the Southern Pacific depot.

The Guggenheim Company of Fresno is doubling the capacity of its warehouse and receiving station here.

Mr. Levy of Coalinga was a recent visitor at the home of his daughter, Mrs. E. Kleinasser and family will leave in a few days for San Bernardino county, where he has purchased an orange orchard.

The new plant of the Dinuba Grape Growers' Company on the Santa Fe reservation north of town is nearing completion.

PASTOR LEAVES FOR CONFERENCE

Rev. Elmer Grant Keith Completes Four Year Pastorate, Which Is Record Breaker for Church

MONTESSO, Sept. 11.—Concluding a four years' pastorate with the Methodist church of Montesso yesterday, a pastorate which breaks the record for length of service for a local pastor, Rev. Elmer Grant Keith went today to Santa Cruz to attend the California conference.

During the Rev. Keith's pastorate, the church has made a net growth of 100 members, and now has a total membership of more than 500. The Rev. and Mrs. Keith have been interested in every member of the congregation since their residence here and many friends not included in the congregation of their church have expressed the hope that they may be returned to this charge.

WEINSTOCK WILL VISIT HANFORD

To Address Prune and Apricot Growers Thursday; Wylie Giffen and G. E. Merrill to Make Talks

HANFORD, Sept. 11.—Colonel Harris Weinstock, state market commissioner, will address the prune and apricot growers of this county at a meeting to be held here on September 14, next. The meeting will take place in the Armory hall and is scheduled to begin at 2:30 p. m. With Weinstock will come Wylie Giffen of Fresno and George E. Merrill of San Jose. Weinstock will discuss the association that is proposed to form to handle prunes and apricots.

HOMESEEKERS ARE FLOCKING TO MERCED IN QUEST OF RAW LAND; MILLER & LUX PLACE LANDS ON MARKET

Homeseekers inspecting undeveloped land in Merced County

MERCED, Sept. 11.—An influx of home seekers during the past week has increased the total of realty sales far above any previous week in several months. Most of the lands, changing hands at raw lands suitable for dairying, alfalfa, and in some instances inquiries are made for lands suitable for the growing of rice. Another thing which will aid in the development of the county is the decision of the Miller and Lux Company to throw down the bars on its lands in the San Joaquin Valley. According to the Los Banos Enterprise, J. Leroy Nickel, the president of the company, has decided that the time has arrived in which to consider a gradual partition of the company's vast holdings, especially in the thickly settled portions of the valley. The company will now listen to the homeseeker in his quest for land. Heretofore it has been the policy of the company to make use of all its acreage, and to lease others. As was anticipated upon the accession of Mr. Nickel to the management, this policy is to be reversed, especially in the congested districts. This will be good news to towns like Los Banos and Dos Palos and other places where expansion of the town limits is prevented and the growth of business hindered by limiting the population of the country surrounding.

Prosperity for Towns
With the gradual breaking up of the 50,000 and 100,000 acre cattle ranches and the placing of a dairyman or fruit raiser on every forty acre tract of these great holdings will come more business for the towns. Industries will be multiplied and greater prosperity will come to all.

Prices of land will vary according to location and quality of the soil, but will range from \$100 to \$300 per acre. There are tracts of fine land adjoining Los Banos, Dos Palos, and other towns that will be open to settlement. There will be lands of various grades for the settler's selection and to suit his purposes.

All lands placed on the market will be under the great canal systems of the West Side and every acre will carry its perpetual water right. And the irrigation system is the best and cheapest in the state, the rate being but \$1.75 per acre per annum. No other section of the state can offer a rate so reasonable or a service more reliable.

Region is Very Fertile
No region can show a greater variety of crops than the West Side lands. Corn and all other grains mature and grow abundantly. Grapes, melons, tomatoes, cucumbers and other crops grow luxuriantly. Fruits of all kinds, even oranges and lemons, grow to great size and mature perfectly. The soil is remarkably rich and productive. The great stands of alfalfa upon which the family orchards, the grape arbor, the thrifty gardens are evidence of that fact.

anticipated upon the accession of Mr. Nickel to the management, this policy is to be reversed, especially in the congested districts. This will be good news to towns like Los Banos and Dos Palos and other places where expansion of the town limits is prevented and the growth of business hindered by limiting the population of the country surrounding.

Prosperity for Towns
With the gradual breaking up of the 50,000 and 100,000 acre cattle ranches and the placing of a dairyman or fruit raiser on every forty acre tract of these great holdings will come more business for the towns. Industries will be multiplied and greater prosperity will come to all.

Prices of land will vary according to location and quality of the soil, but will range from \$100 to \$300 per acre. There are tracts of fine land adjoining Los Banos, Dos Palos, and other towns that will be open to settlement. There will be lands of various grades for the settler's selection and to suit his purposes.

All lands placed on the market will be under the great canal systems of the West Side and every acre will carry its perpetual water right. And the irrigation system is the best and cheapest in the state, the rate being but \$1.75 per acre per annum. No other section of the state can offer a rate so reasonable or a service more reliable.

Region is Very Fertile
No region can show a greater variety of crops than the West Side lands. Corn and all other grains mature and grow abundantly. Grapes, melons, tomatoes, cucumbers and other crops grow luxuriantly. Fruits of all kinds, even oranges and lemons, grow to great size and mature perfectly. The soil is remarkably rich and productive. FRESNO CITY FREE OF CONTAGIOUS DISEASES

Physicians Will Make Rules for Tubercular Clinic

General Health of City Is Good; One Case of Small Pox

The Fresno city schools opened yesterday morning with no contagious diseases under quarantine in the city, according to the report of Dr. A. H. Stacey, city health physician, that was filed with the board of health last night. A special meeting will be called some time this week at which time rules and regulations will be drafted for the tubercular clinic that has been taken over by the city. The trustees at their last meeting took over the clinic and agreed to employ a nurse at \$55 a month.

According to the report of Maude M. Mills, the visiting nurse, 55 examinations were made at the clinic during the month of August. Of this number there were 11 positive cases, 20 probable and 24 negative. Three were sent to the county hospital.

In the report of the city health physician it was set forth that there were 62 births during August and 30 deaths.

In regard to the free market Dr. Stacey reports:

"The free market has been given the customary attention during the month and all food stuffs, as well as the market itself, have been found in first-class order. Owing to the fact that refuse has been allowed to collect on the ground underneath the stands, iron covered garbage cans have been placed on the market to care for this refuse, and will be of great value in maintaining what we have already, one of the best free markets in the state."

One Small Pox Case—A small pox case was discovered in a Mexican family at the corner of B and Kern streets, the case having come in from the country. Investigation showed that some fifty or seventy-five Mexicans had been exposed and that about thirty were living under practically the same roof, eating and sleeping together. With the assistance of Drs. Long and Adams I vaccinated about sixty and placed many under quarantine with guards to see that the quarantine was not broken. After fifteen days I am glad to report that no new cases developed.

"The general condition of the health of the city is good."

Fred W. Hayes, meat and food inspector, reports that markets and restaurants were found in good condition, with the exception of a few iceboxes that the owners were notified to keep clean.

J. B. Canham, city milk inspector, reported that he had gathered fifty-

FINGERPRINTS, TOO MUCH MONEY, LEAD TO BURGLAR'S ARREST

Prisoner Threatens Vengeance of British Government on Officers

The inability to explain away the business of his own finger prints to those found upon a jewel box from which \$100 had been stolen, plus the inability to explain the presence of over \$50, yesterday caused the arrest of James Hasden, a negro labor contractor.

Incidental to the arrest of Hasden is his threat to "act" the entire sheriff's force. Hasden says that he is a British subject. He informed Deputy Sheriff Bottorff and Constable Ford or Fowler yesterday that he would demand his release through the British consul.

T. Kauria, foreman on a ranch owned by Dr. M. A. Morrison of Fowler, was robbed of \$100 he had left in a little box. Hasden and two other negroes are the only persons who had knowledge of the hiding place of the money. The other men were finger-printed, but the likeness produced did not tally with the tell-tale prints left on the box. Accompanying the negroes to the city they located Hasden in Chinatown.

Hasden claimed he left the ranch with \$5 cents, but on reaching town he borrowed \$75 from a friend. He had over \$50 in bills when arrested. The money stolen was in gold. A cashier of a local bank identified Hasden as a man who had four \$20 gold pieces exchanged for paper money.

Despite the evidence secured by the officers, Hasden stoutly maintains his innocence, and threatens the wrath of the British government upon the heads of all who have aided in his arrest.

Three samples of milk for examination, and had inspected all dairies and plants.

Eugene Anderson, sanitary inspector, reported that he had given 10 written notices and 32 verbal notices to about 100 dairies.

Robert J. Ellithorpe, plumbing inspector, reported that he had issued 11 sewer permits, 50 plumbing permits and had collected \$138.75.

O'NEIL IS HELD TO HIGHER COURT

Lawrence O'Neil, who is charged by J. H. Bradford of Visalia with having robbed him of \$15 last Saturday night, held to answer in the Superior Court by Judge Briggs yesterday. O'Neil was arrested within thirty minutes after the robbery occurred upon a description furnished by the victim. When brought to police headquarters, Bradford without hesitation positively identified him as one of the men who assaulted him, and while dazed from the blows, took the money from his pockets.

FRESNO'S SCHOOLS ARE PREPARING TO OPEN TO NEARLY 7,000 PUPILS

High School Enrollment Totals 1192; Elementary Increase

Normal Training School Has 358; Students to Register Tomorrow

"Creeping like snails, slowly," the youthful population of Fresno again took up the pursuit of knowledge yesterday morning nearly 7,000 strong. Incomplete returns given out by Superintendent C. C. Starr show a total enrollment to date of 6338, which would indicate that there has been a large increase in attendance at the city schools and high school. Eleven hundred and ninety-two was the registration of the high school and junior college yesterday afternoon, about 50 of which number were students in the college division. There are 202 new students in the high school, about 40 of which are transfers from other schools, thus making the class of 1920 the largest class of freshmen that has ever registered in the school. This year's enrollment represents an increase of something over 100 over the figures for the first day last year, and students will continue to enroll for the remainder of the week. Principal Frederick Liddake believes.

Increase in Elementary Schools—An increase of 213 was noted in the elementary and intermediate schools when the principals of the various schools submitted their reports yesterday afternoon. The increase was noted in the intermediate schools, there being 113 more pupils in the seventh and eighth grades than there were at the opening day last year.

"These figures would indicate that people are keeping their children longer in the higher grades," said Superintendent Starr at night.

By schools the largest increase in enrollment were as follows: Longfellow, (intermediate), 77; Lincoln, (elementary), 65; Hawthorne, (elementary), 25.

It is expected that pupils will continue to enroll in the various elementary and intermediate schools for the remainder of the week. Considerable difficulty is experienced at times, the superintendent declared, in getting the children to come to school on the first day, but it is believed that all will have enrolled by the first of next week. Principals will turn in their lists of pupils to the city superintendent's office by Monday, at which time an official report will be given out.

Normal Training School Opens

The training school of the Fresno State Normal began operations yesterday morning with 265 pupils. Many applications of parents to have their offspring enrolled had to be refused by the faculty of the state school on account of limited facilities. The Bulard rural training school, which is to be run this year in connection with the normal training school, opened in the old building. Pupils will be in the new building before the end of the week, it is said. Yesterday's enrollment was about 150.

A faculty meeting will make plans and arrangements for the program of courses at the Normal school today and tomorrow, will see the registration of the new normal students. It is believed that the registration figures will be in excess of those of last year. Old students of the Normal school will register Thursday, and the first assembly will take place Friday morning in the new auditorium.

Pupils Did Full Day's Work

Pupils of the city schools were not started in gradually as they might again become accustomed to the harness, but were treated to a full program. The very first day, by previous arrangement of the superintendent and principals, the programs were all set. All books were at hand, and instruction was taken up almost as though there had been but a week's respite, rather than three months.

High school students assembled in the morning, and junior college students in the afternoon. Swarms of students were busy in fixing up their programs and courses yesterday afternoon.

Night Schools Re-Open

Fifty students registered last night in the evening elementary and high schools. Thirty of those were high school students. Instruction was started at once in bookkeeping, penmanship, commercial arithmetic and other commercial subjects. Classes will be held in the old Hawthorne school for the benefit of those who desire to improve their elementary education as well as in high school subjects.

KRYPTOK

WITHOUT LINES IN THE LENS

It used to be true that bifocal glasses were troublesome, and "old" looking, and trying to the eyes. It is NOT true of KRYPTOKS—the new bifocals that look and wear like plain glasses, but give perfect near-and-far vision.

Advisory Committee Will Meet Saturday at Commercial Club

Whirlwind Campaign Will Be Made; Election October 24

Permanent organization of the good roads advisory board to the Fresno County Highway Commissioners will be effected Saturday morning at 10 o'clock at a meeting to be held at the Commercial Club. Cards, calling the fifteen members to the meeting were sent out yesterday by W. A. Sutherland, temporary chairman.

At the meeting Saturday morning a chairman and secretary will be elected, and this will be the opening gun in the coming campaign to carry the \$5,000,000 good roads bond issue. It is the intention to make a whirlwind six weeks' campaign and to visit all sections of the county, hold public meetings and show that good roads are the cheapest. Committees will be named soon to make arrangements for these meetings, and at each one there will be several speakers. The city organizations of Fresno have endorsed the good roads bond issue, and the Chamber of Commerce, Merchants' Association, Commercial Club and the Boosters' organization have agreed to aid in the campaign and to attend the meetings.

It is the desire to hold the meetings in town halls throughout the county and in the schoolhouses. The speakers will be named as the date to show that good roads are the cheapest for the farmer, and these men will meet criticism, should any develop. The advisory committee will act as an advisory board to the three members of the county highway commission. The board was appointed by the board of supervisors at the suggestion of the county highway commissioners.

So far, there has been no organized opposition to the county good roads bond issue which will be voted on October 24—just two weeks previous to the general election in November.

TRAFFIC ASSN. TO BOOST MEMBERSHIP

Directors Say Good Work Deserving of Better Local Support

Plans for a big membership campaign were discussed by the board of directors of the Fresno Traffic Association yesterday at their regular monthly meeting. Details of a scheme for boosting the membership will be left to the executive committee of the body and announcement of their plans will be made at an early date.

In view of the good work done by the association, especially when the transportation freight rates were suspended by the Interstate Commerce Commission, the traffic men feel that greater support by the merchants as well as by the shippers and producers should be accorded their organization. It was pointed out at the meeting that thousands of dollars have already been saved to the farmer and his agent by the suspension of rates that were to have gone into effect on September 1. At a date yet to be announced by the Interstate Commerce Commission further arguments favoring the abolition of the new schedule were made.

The new schedule more favorable to the shipper will be heard by the federal board and at this time, again, the Fresno Traffic Association will have to send its secretary, F. M. Hill, to Washington to aid in the battle and safeguard the interests of the shippers and producers of this community. By that time it is hoped by the traffic directors the present membership of the association will have been doubled.

Secretary Hill, who returned recently from Washington where he participated actively in the fight to bring about the suspension of the freight rates, submitted to the directors yesterday his report on what took place at the meeting. Routine reports were read and then an adjournment taken pending action by the executive committee in regard to the membership campaign.

BOOST OF COUNTY ATTRACTS NOTICE

Advertisement of Chamber of Commerce Attracts Many Prospects

That the advertisement of the resources of Fresno county, placed in the Sunset Magazine by the Fresno Chamber of Commerce, is attracting much attention was evidenced yesterday when Assistant Secretary Rothe of the local board received a number of letters submitted to the Sunset by competitors in the August Ad. Letter contest of the magazine.

Harper's Ferry, West Virginia; Jessup, Maryland; Wilbur, Oregon; and Phoenix, Arizona, were among the places from which the advertisement has drawn notice and in each case the writer classes himself as a prospective settler.

One letter in particular, written by a bride, is a fair example of the desire for Fresno acreage being created among the discontented farmers at eastern points.

"It has been the fondest dream of hubby and I to own a little gray home in the West," writes Mrs. George B. Oehm, Bolivia post office, Harper's Ferry, West Virginia. "A place to call our own with an orange grove and bunch of grapes. Your advertisement has made us discontented and our every effort will be directed toward securing one of your little farms."

Mrs. John B. Johns of Reliance, Georgia, writes, "Having spent one vacation in Fresno county with its glorious landscape, stern savage cliffs and flower strewn carpet of rich vegetation, I can say whatever else be forgotten in this crowded life, the vision of this vacation will linger like an inspiration 'ill memory shall have just its power."

According to the letter of Mabel S. Otis of Jessup, Maryland, "Becoming

Police-Court Hits Record Mark As 76 Prisoners Appear

Even and double-handed justice, and, in fact, almost any kind of justice, was meted out in the police court yesterday morning by Judge Briggs.

Incidentally, the record for busy days, more than two years was passed. There were seventy-five cases scheduled.

Most of the offenders drew a sentence of ten days, which was suspended.

"Lots of you, by the law of averages, are guilty," said his honor. "However, I have not time to look up every case. If you know when you're lucky, don't come back."

The fact that last Saturday was a holiday accounted for the congestion.

a millionaire seems a dull and useless occupation compared with gaining the ownership of such a fertile 20 acres."

"The advertisement appeals to two of our most primitive instincts, that of home making and the desire to wrest a living from the soil," says Mrs. Will-Brice of Wilbur, Oregon.

Vernon B. Blath, a youth living at 715 Grand avenue, Phoenix, Arizona, thinks "there is nothing better in the world than to live upon a farm and lead the honest, quiet life that most people don't live."

MUST SELL AT ONCE Special—Two five-room cottages for sale, to be moved from 1 and Stanislaus. Call Emmett Higgins, contractor, at once. Phone 3185-V.
